

Sacci Harness Basic

Art.No: 266038

Sacci Harness Basic is an ergonomic solution for anyone who carries things at work. With its unique design, developed both to be ergonomic and to function as an extra hand, it's suitable for a variety of purposes.

With the Sacci Harness we want to facilitate and streamline people's work and offer the possibility of preventing poor health and occupational injury. As the weight is distributed over both shoulders you reduce harmful strain on other parts of the body.

The harness fits most controls on the market. The carabiner hooks in metal can handle attachment points with a cross section of up to 7.5x7.5mm.

MEASUREMENTS (WxH): 420x300 mm

WEIGHT: 200 g

HOW TO ORDER:

Send an e-mail to support@sacci.se
or give us a call at 0243-932 50

We got your back.
